

Wagner Fire Cadet Program

What is a fire cadet?

- A fire cadet is essentially a junior firefighter. You will be able to do hands-on training and help with department things that the senior firefighters deem safe for you to do.
- If you stick with cadets long enough, you will be able to go on fire calls and help on the fireground (without going into the structure). So you can really get a feel for what firefighters do.

How big of a commitment is this?

- Cadets is not a huge time commitment. You will be required to attend 1-2 trainings per month. These usually occur on Monday evenings, but there could be a few different days sprinkled in as well.

What can I use this program for?

- Fire Cadets is a good way to get your foot in the door on an active fire department if that is something that you feel that you want to do in your future.
- ACP or Community service hours (high school requirement!)
- Resumes and Job applications

What will be expected of me?

- Attend monthly trainings (One per month)
- July Jamboree (July 25, 2024)
- Annual Hose Testing (TBD)
